| Attachment 2 – Quarterly OARF summary data: Subcontractor activities |      |

## **Executive summary**

This quarter we responded to NLM's request for our Year 2 budget. Available funding for Year 2 was reduced by 23% (compared to the Year 2 budget approved in the final 5-year contract negotiations). Thus, to address a severe reduction of available funds, several categories of spending were re-budgeted. The identified amount of unexpended funds from Year 1 were proposed to be carried forward into Year 2, to mitigate the budget squeeze. NLM required 3 rounds of negotiations before the final Year 2 budget was approved.

To plan for the coming year, PNR staff participated in several planning sessions to discuss network services and outreach program outcomes, outputs, indicators and related activities charted out in our 5-year contract proposal (displayed in a logic model). Specific activities plans for Year 2 were charted. The planning sessions also helped to identify baseline data to be collected via a Network member survey, planned for Spring 2007.

## Network infrastructure

TABLE 1. Quarterly infrastructure data

|   | Current quarter | Previous quarter |
|---|-----------------|------------------|
| Network members – full  | 159             | 159              |
| Network members – affiliate                                       | 215             | 212              |
| Libraries providing services to unaffiliated health professionals | 96 (60%)*       | 97 (61%)*        |
| Libraries providing services to public users                      | 102 (64%)*      | 98 (62%)*        |
| Average fill rate for resource libraries                          | 791             | 821              |

\* Include in parentheses the percentage of full Network member members providing services to unaffiliated health professionals and public users. This can be computed as: % providing services = (count of libraries providing services)/(count of full Network members)

### Regional Advisory Committee (RAC) activities

In January 2007, G. Kouame renewed and revised the membership of the Consumer Health Advisory Committee for the 2006-2011 contract cycle. Membership includes representatives from all 5 states in the Pacific Northwest Region and from a variety of professional perspectives.

### Needs assessment and evaluation activities/data

M. Blake and P. Devine participated as observers in the usability studies for the NN/LM PNR web site done by AIR. These sessions were part of the overall NNLM Usability Evaluation Redesign (UER) Project.

## Outreach

This quarter staff spent considerable time with administrative concerns regarding new Outreach to Underserved Health Professionals and Community Outreach Projects. Statements of work were developed and signed, but University of Washington and NLM administrative procedures delayed the actual start dates. In addition, we solicited proposals for Express Outreach Awards. Seven proposals were received by the December 1 deadline and were reviewed in December and January.

L. Milgrom and Mike Blackwell (University of Washington, Office of Sponsored Programs Subcontract Administrator) visited Somali Community Services of Seattle to discuss final project audit and payments (11/21/07).
